Thank you so much for funding my grant for Ozobots in my fourth grade class at Curie. For many years I have participated in "Hour of Code" with my students and it was always a successful and worthwhile experience. I wanted to expand on the programming skills they learned during Hour of Code, and I found Ozobots to be an easy starting point for young programmers.

After receiving this grant and immediately using the Ozobots, my classroom is now ripe with budding programmers. Their initial frustrations with learning the code and robots has grown into stronger problem solving skills and critical thinking skills. They now collaborate with each other to solve and create more complex programs. I truly appreciate the opportunity that Educate has given me to bring this important skill set to my students.

- Jennifer Selleck, 4th Grade Teacher, Curie

I want to thank you very much for granting me the funds to purchase seat sacks for my classroom. They are the perfect size for holding the students work, materials and needed objects through out the day.

Nina Podhorsky, 1st Grade Teacher, Doyle

- The EdUcate! Math Academy at Standley Middle and University City High Schools
- Jr. Achievement BizTown for all 5th Graders at Curie, Doyle and Spreckels

uc-educate.org

EDUCATE! is a nonprofit foundation established in 1993 with the mission of improving the quality of our children's education by providing supplemental resources to our five University City public schools. During the past 23 years we have granted \$1,700,000 to these schools in the areas of literacy, math, science, technology and the arts. Funds directly support principals, teachers and multi-school programs such as the EdUCate! Math Academy and Jr. Achievement's BizTown for fifth graders.
